

The DES2000 control part number 9-144749 is now obsolete and is being replaced by the FDC9100 control part number 9-403049. Following are instructions for replacing the DES2000 with the FDC9100

MOVE THE WIRE FROM PIN 14 TO PIN 9

MOVE THE WIRE FROM PIN 15 TO PIN 10

MOVE THE WHITE WIRE FROM PIN 7 TO PIN 5

MOVE THE RED WIRE FROM PIN 8 TO PIN 6

MOVE THE POWER WIRE (LOAD) FROM PIN 9 TO PIN 7

MOVE THE POWER WIRE (NEUTRAL) FROM PIN 10 TO PIN 8

Control Programming:

Press and hold the Scroll button for 5 seconds until SEt is displayed to access the Setup parameters

Press the scroll button once to step through the setup parameters in the table below. Press the up or down arrow to change the setting. Press the scroll button once to enter the setting.

Press the R button to exit the setup parameters.

Setup parameters:

Note: Codes not shown in this list are not used or should be left at factory setting.

| Code | Parameter Description | Setting |
|------|--|--|
| LOCK | Select Parameters to be locked | nonE - during setup uSEr – after setup complete |
| INPT | Input sensor selection | J_tC |
| UNIT | Input unit selection | °C or °F |
| DP | Decimal point selection | No.dP |
| SP1L | Low limit of setpoint value | 0 for °C, 32 for °F |
| SP1H | High limit of the setpoint value | Max operating temp of the oven. |
| SHIF | PV shift (offset) value | Used for oven calibration |
| FILT | Filter damping time constant of PV | 2 |
| PB | Proportional band value | 4°C or 7°F |
| Ti | Integral time value | 15 sec |
| TD | Derivative time value | 0 |
| OUT1 | Output 1 Function | rEvR |
| Code | Parameter Description | Setting |
| O1TY | Output 1 type | SSrd |
| O1FT | Output 1 failure transfer mode | 0 |
| CYC1 | Output 1 cycle time | 1 |
| OFST | Offset value for P control | 0 |
| RAMP | Ramp function selection | nonE |
| | Several setting that are unused | |
| SEL1 | Select 1 st parameter for user menu | nonE |
| SEL2 | Select 2nd parameter for user menu | nonE |
| SEL3 | Select 3rd parameter for user menu | nonE |
| SEL4 | Select 4th parameter for user menu | nonE |
| SEL5 | Select 5th parameter for user menu | nonE |
| SEL6 | Select 6th parameter for user menu | nonE |
| SEL7 | Select 7th parameter for user menu | nonE |
| SEL8 | Select 8 th parameter for user menu | nonE |

Press the R button to exit the setup parameters

Change the LOCK Code to uSEr

Change the setpoint as needed using the up and down arrow keys.
